

VABO ^N

BLOSSOM Beauty from the inside

We recommend drinking VABO-N BLOSSOM once a day, immediately after stirring it into 100 ml of water.

For optimal results, we recommend long-term use. Even if the first beauty effects are already noticeable after a few weeks, the full potential unfolds after 3 months, or after 6 months for cellulite.

-  No added sugar
-  Gluten free
-  Soy free
-  Lactose free
-  Only natural flavors

VABO^N
BLOSSOM
 THE BEAUTY OPTIMIZER

Drink yourself beautiful!
 Your sustainable beauty treatment from the inside!

From the age of 25, metabolism slows down and with it the supply of nutrients to the skin. In addition, the body's own production of collagen decreases. The hyaluronic acid content also decreases.

The consequence: plumpness, firmness, smoothness and radiance of the skin skin, nails become brittle and hair loses density and shine.

Environmental influences such as sunlight, air pollution, smoking, alcohol consumption, stress, hormones, an unhealthy diet as well as "blue light" additionally intensify these negative effects.

The VABO-N BLOSSOM 4D*-Beauty-complex acts as a protective shield and activates beauty from within so that it can radiate outward.

Acts on all dimensions of your beauty: skin, hair, nails and connective tissue

There are many collagen drinks. VABO-N goes one step further and uses the knowledge of science, especially botany to create a unique multidimensional product - a product that respects the laws of nature and thus achieves a potentiated effect that the individual components would never create.

Study-proven ingredients with potentiating effect

- ✓ VERISOL specific collagen peptides
- ✓ Vegan hyaluronic acid
- ✓ Natural antioxidants
- ✓ TetraSOD®, superoxide dismutase from the dried microalgae dried microalgae *T.chuii*
